The Apartment Co-Pilot

NEXT-GEN APARTMENT RESOURCE & LIVING ASSISTANT

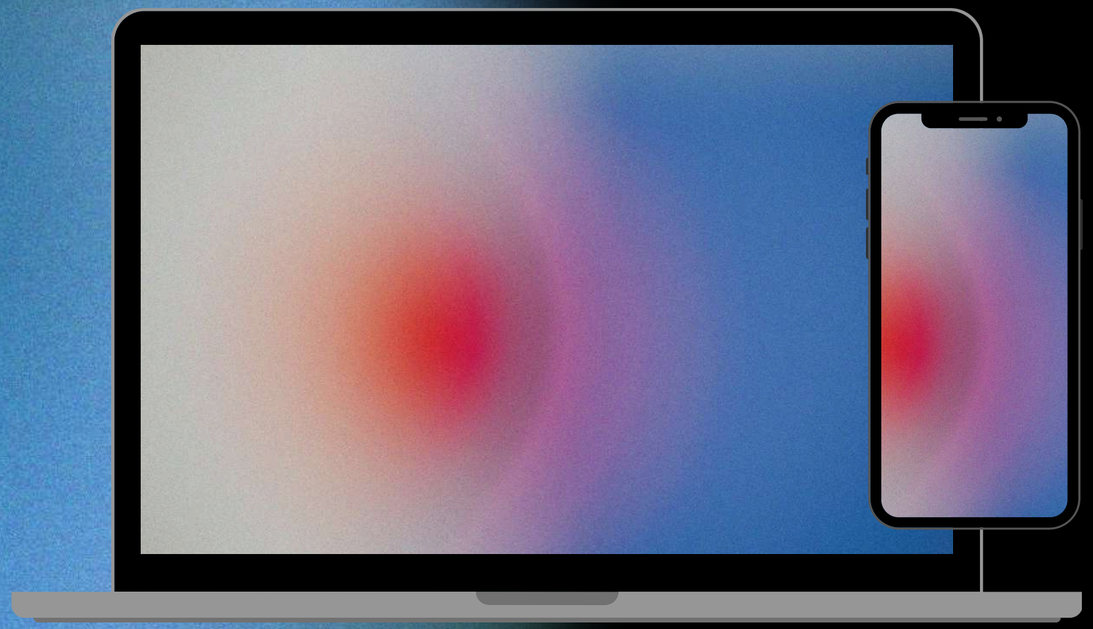
SENIOR DESIGN PROJECT | UNIVERSITY OF CINCINNATI | CLASS OF 2026

Team Advisor:
Seokki Lee

Team:
Neha Ross Lenin
Aditya Anand)

PROJECT PURPOSE & GOALS

To create a mobile app that helps roommates and students better manage shared living tasks such as groceries, chores, and bills while using AI-driven predictions and automation.



Problem:

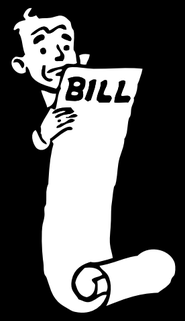
- Roommates forget chores
- Bills get confusing
- Groceries are unorganized
- No single app to manage everything

Goal:

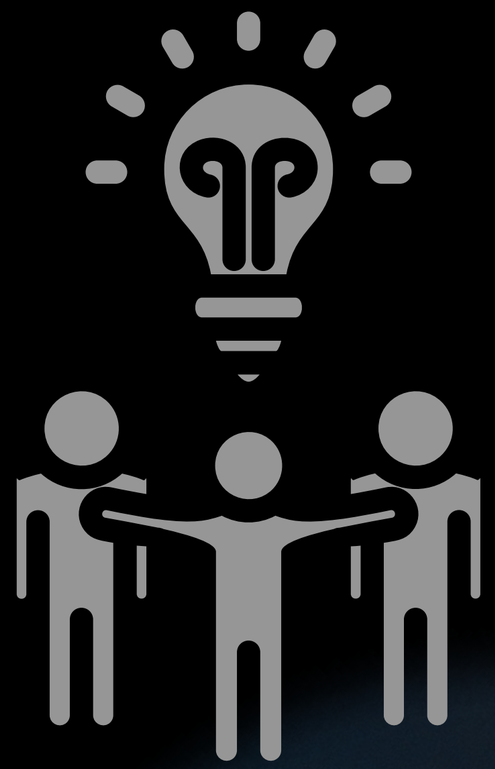
- Build one app to manage shared living
- Use AI to make things easier and smarter

OUR SOLUTION

- One app for everything
- Real-time updates for all roommates
- Tracks chores, bills, groceries, and inventory
- AI helps automate and simplify tasks



CORE FEATURES



- Household management (create & join via invite)
- Chores (assign tasks or rotate automatically)
- Grocery tracking (add items, AI suggestions)
- Bill splitting (equal, custom, percentage)
- Inventory tracking (low stock alerts)
- Dashboard (see everything in one place)

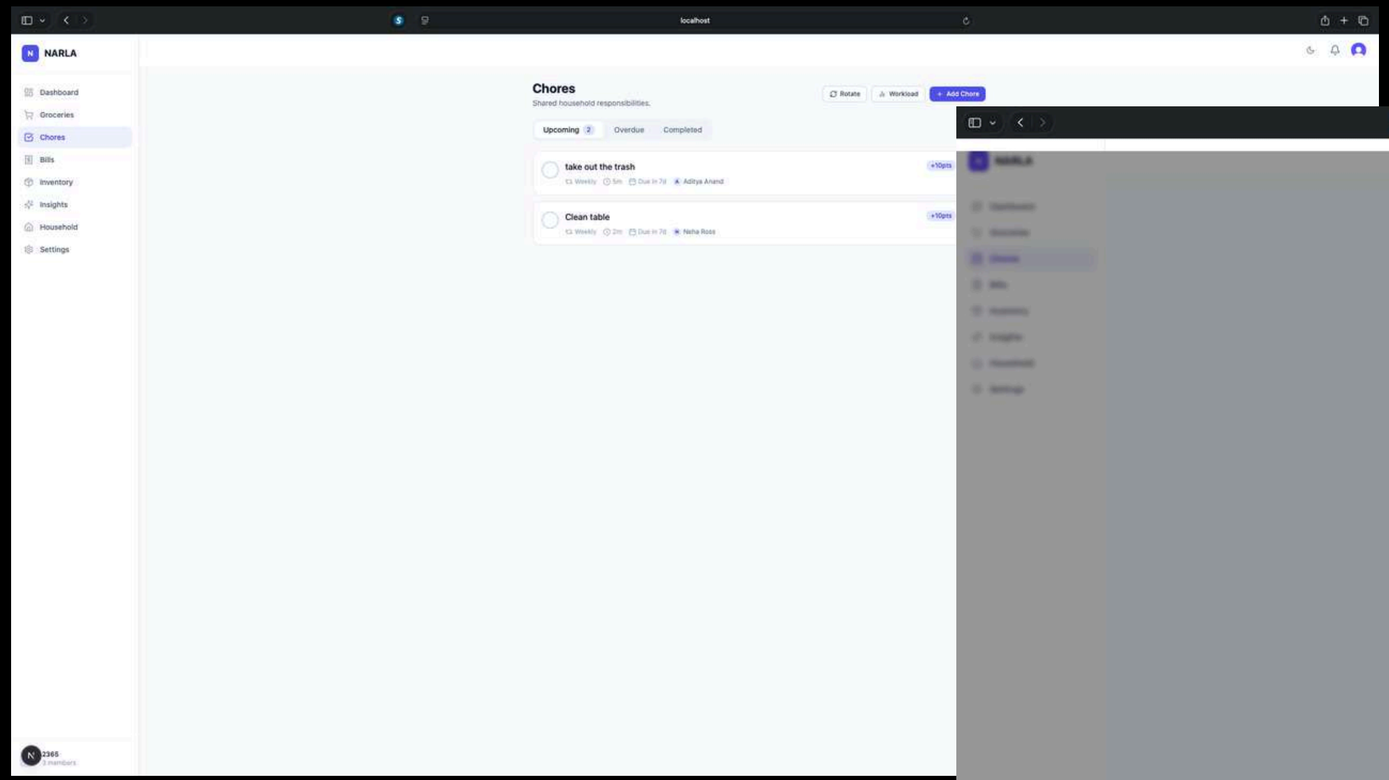
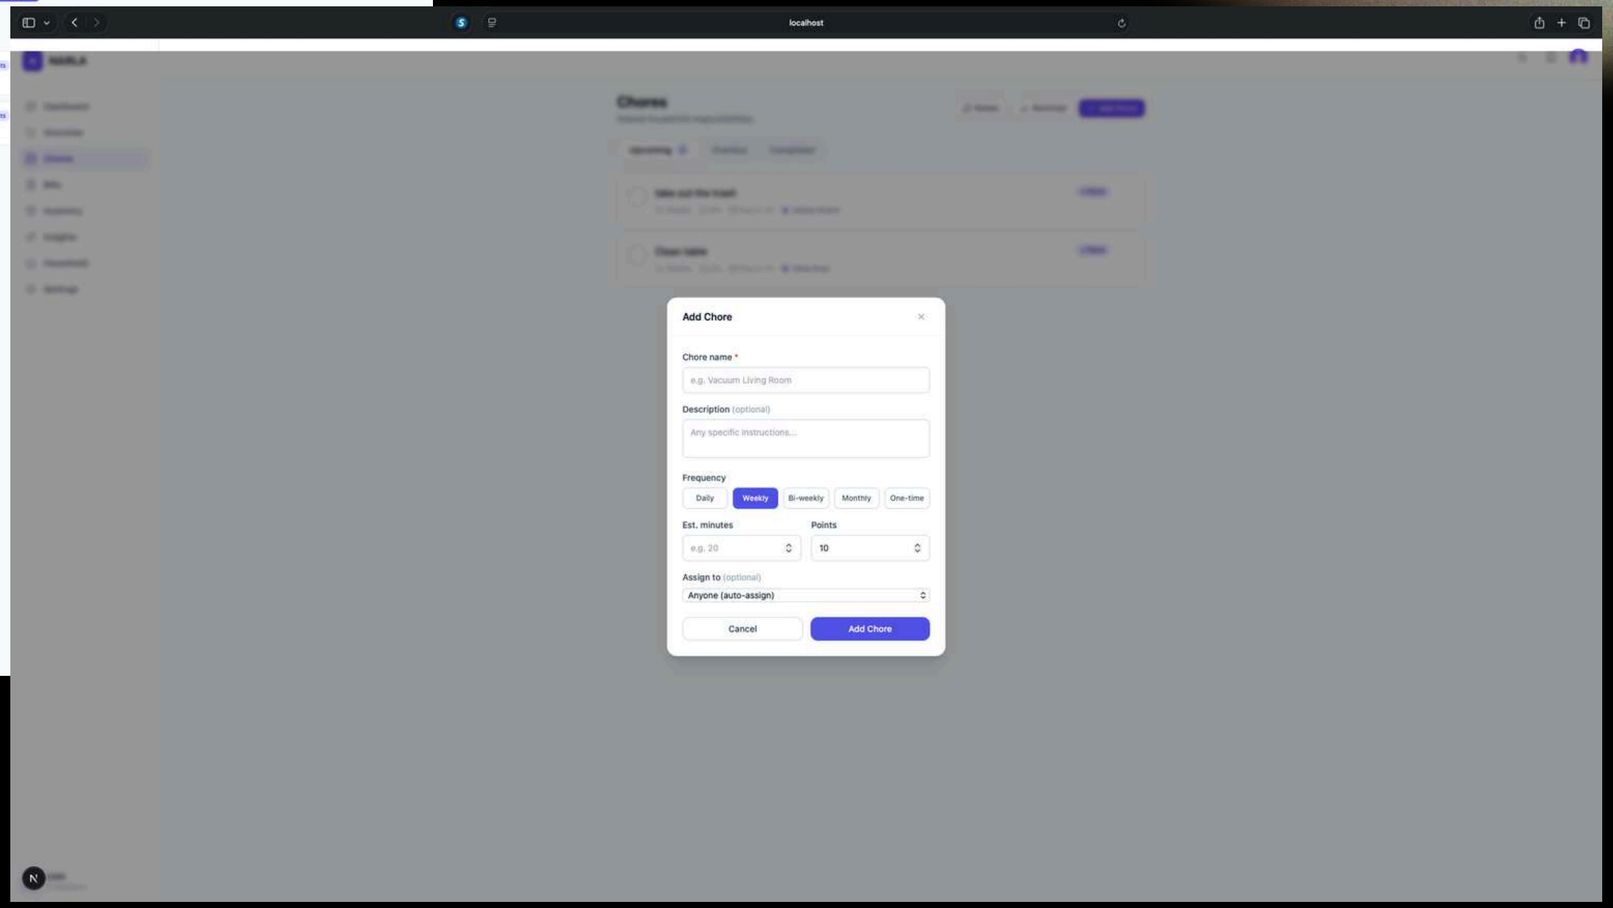
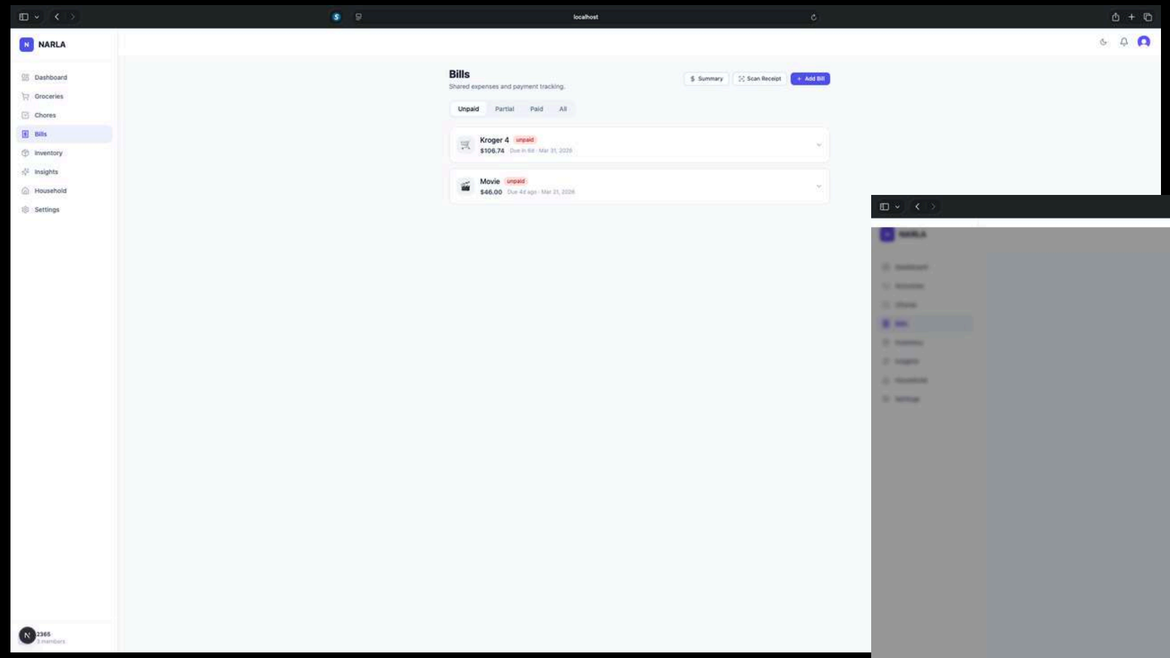
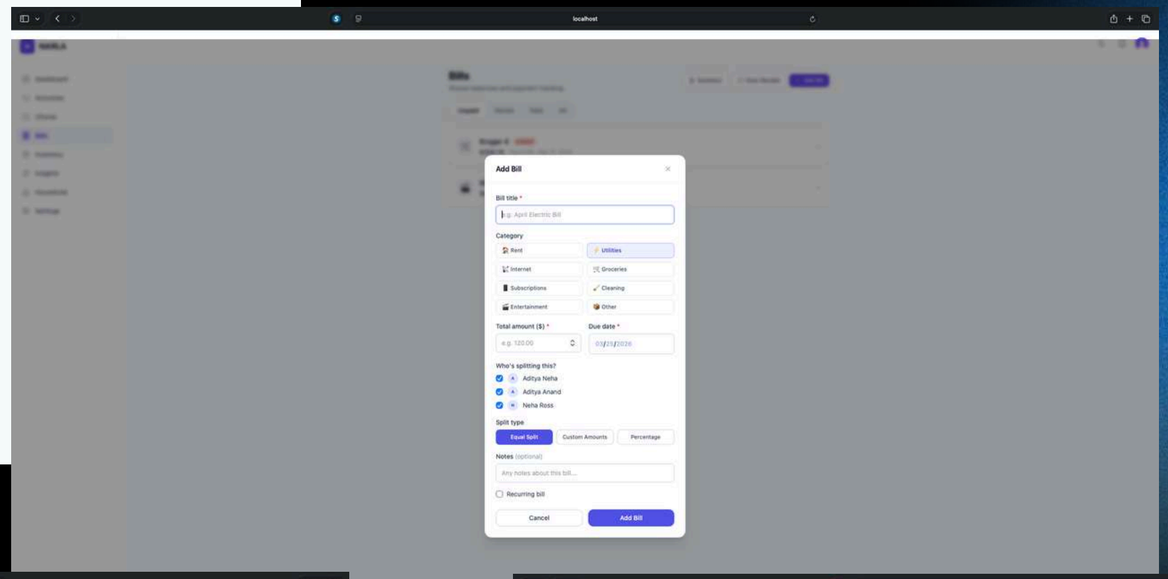
CHORES:





BILLS





- Flexible bill splitting
- Track payments
- Auto-sync groceries → inventory
- Low stock alerts

CHORES

No chores due — you're all caught up!

BILLS DUE SOON

Movie	$46.00	Overdue
Kroger 2	$23.90	Overdue
Vine Market	$100.54	6d
Kroger 1	$106.74	6d

AI Insight

low

15 chores completed in 30 days is a decent start, and it's clear some folks are putting in real effort to keep the place running smoothly. With a bit more participation from everyone, that number could easily climb and the home would feel even better...

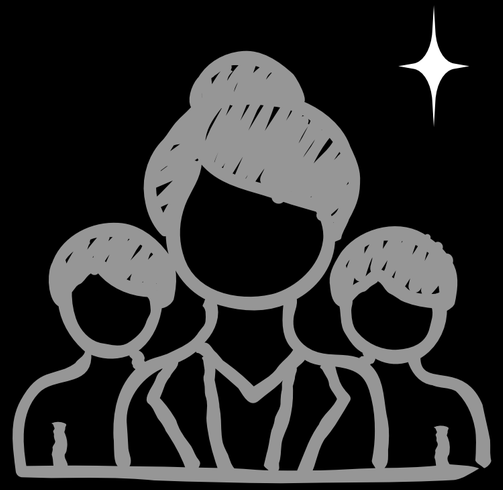
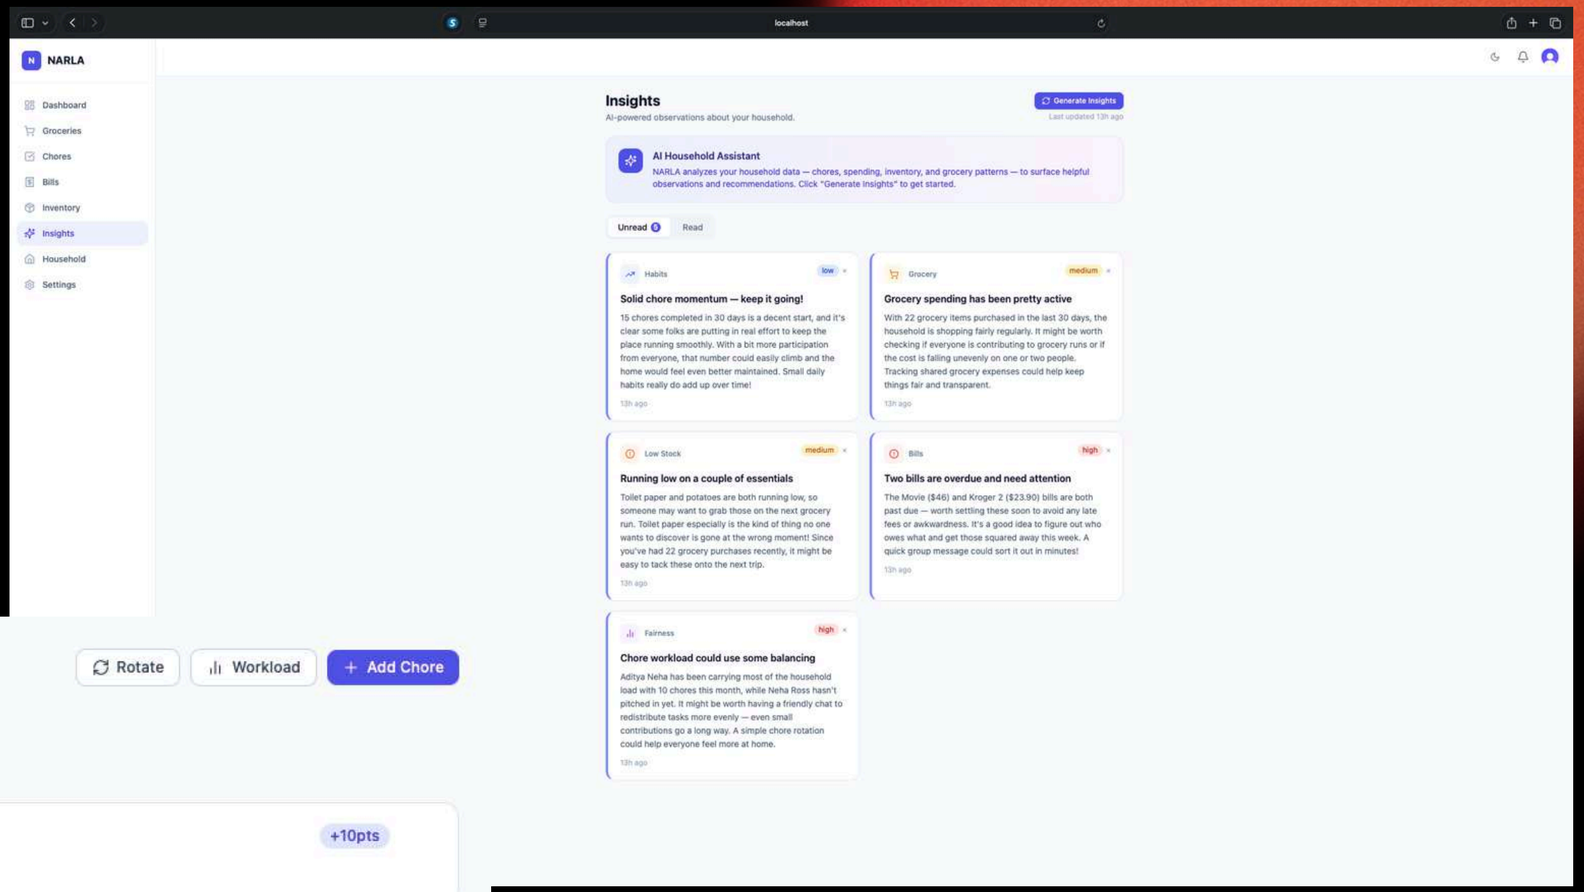
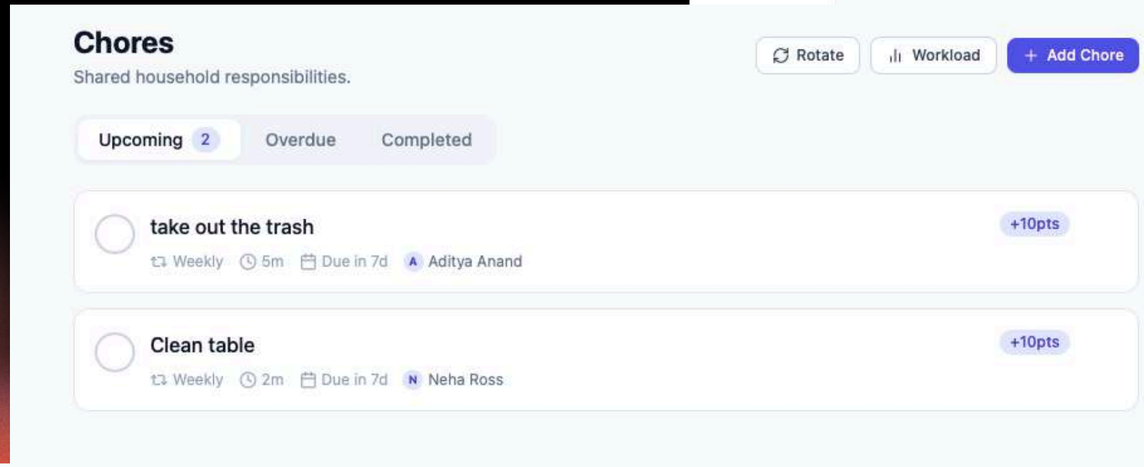
AI FEATURES

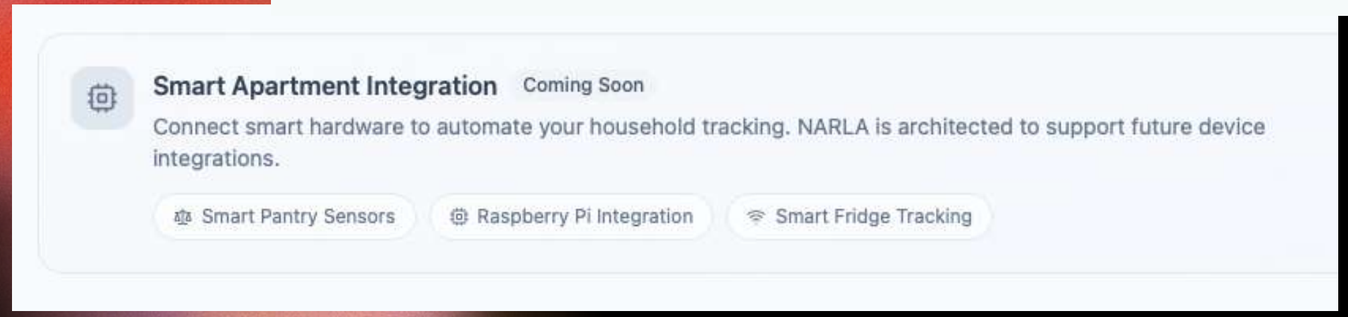
- Smart grocery suggestions
- Receipt scanning (auto extract items)
- Spending and chore insights



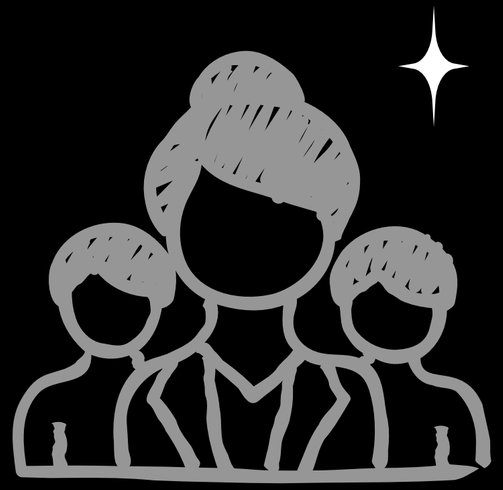
AI FEATURES







- AI Insights
- Smart Notifications
- Gamification of Chores
- Automatic pantry and fridge scanner



TECH STACK

- Frontend: Next.js + TypeScript
- Backend: Convex (real-time database)
- Authentication: Clerk
- AI: Claude API

WHY NARLA?

- All-in-one app (chores, bills, groceries, inventory)
- Reduces roommate conflicts
- Real-time updates for everyone
- AI-powered automation (less manual work)
- Saves time and keeps everything organized

THANK YOU!
